What are cookies (and other means of tracking)?

In a similar way to many other websites, we use cookies and similar technologies
Cookies are small text files that are stored within your internet browser by the websites that you visit to understand more about your visit and help us to enhance your experience.

Functions usually performed by a cookie can be achieved by other means, such as by using pixel tags.
We refer to cookies and these other technologies generically as Tracking Tools.
For all the specific information on the Tracking Tools of this site, their data storage and how to manage them please read our Cookie Policy.
These are technical and complex issues: if you have any doubts or requests contact us, we will be happy to help to you!

Technical Tracking and Tracking Tools

They are essential: they are used for the proper functioning of the site.

They are used to navigate or provide a service requested by the user. They are not used for other purposes and are normally installed directly by the website owner.

Without the use of such cookies, some operations could not be accomplished or would be more complex and/or less secure, such as home banking activities (display of the account statement, transfers, payment of bills, etc.), for which cookies, that allow you to make and maintain user identification within the session, are indispensable.

Important

The user's consent is not required for their installation.

Statistics Cookies

We use statistics cookies to study, and then improve, how users interact with our website.

Analytics cookies allow us to gather specific information about our site, we cannot use them to find out details such as your name or address. In any case they can't be used for commercial purposes.

Third parties who provide the site owner with these measurement services must not combine the data, even minimized, with other processing (for example customer files or statistics of visits to other sites) or transmit them themselves to other third parties (unless the production of statistics with data minimized interests multiple domains, websites or apps traceable to the same owner or business group). In any case, the analysis of the measurements carried out must never result in an activity that, going beyond the boundaries of a mere statistical count, actually takes on the characteristics of a processing aimed at making decisions of a commercial nature.

Important

Are assimilated to the Technical Tracking Tools apply the same rules in terms of information and consent) only: when processed directly by the site owner if used to optimize the site by collecting statistical information in aggregate form on the number of users

and how they visit the site or how much processed by third parties if user data are previously minimized and cannot be combined with other processing or transmitted to additional third parties in all other cases the user's consent is required.

Preferences cookies

These cookies enable this website to save information on your shopping preferences including filtering your searches to display the most relevant products to you.

Important

This Tracking Tools are not used unless you give your consent. It is possible to modify or withdraw at any time the consent for each type of Tracking Tools using the dedicated tool, present on every page of the site.

Marketing and third-party cookies

Aside from setting cookies ourselves, we also allow carefully-selected third parties to set cookies and pixels during your visit to our website. The Third-Party Tracking Tools cannot be completely controlled by the Data Controller, therefore for further information, we encourage you to read the third-party providers' policies. In any case, if you have any doubts or requests contact us, we will be happy to listen to you!

(Third party cookies collect information about your browsing habits in order to make advertising more relevant to you and your interests. They are also used to limit the number of times you see an advert as well as help measure the effectiveness of an advertising campaign)

Social media cookies

Many social media cookies are set through plugins, widgets, and sharing buttons

Social media cookies are **cookies used to connect a website to a third-party social media platform** to share

The Data Controller's website may also use plugins and sharing buttons, which determine the presence on the site of third-party tracking tools (C.d. cookies for social networks).

Cookies for social networks are used to verify the interest and/or share the contents of the Data Controller's website on social media (for example on Facebook). The information collected by these cookies may be transmitted to the third parties providing the service (for example Facebook).

The plugins and/or sharing buttons (C.d. social button/widget) are presented as icons of social networks (for example Facebook) and other websites. By clicking on it, users who are browsing the website of the Data Controller can interact directly with social networks and other websites: in this case, the social network and other websites acquire data related to the user's visit.

To know how the data collected by cookies for social networks on the website are managed, please refer to the relevant
